One only, 5 kW Solar Photovoltaic (PV) system, including panels, mounting framing, grid-connect inverter, design and installation. Offer available until 31 March 2011.

Price: \$15,500.00 plus GST.

Payment Terms: 20% with order (\$3,410.00 inc GST)
60% prior to component delivery (\$10,230.00 inc GST)
20% on commissioning. (\$3,410.00 inc GST)

Bank Details:

Metpro (Aust) Pty Ltd.
BSB: 013-233
Account: 4948 92116

The price includes the system design, installation and commissioning at Mt Hotham and is subject to currency fluctuation (confirmed at order acceptance). The price includes the panel mounting on a pitched roof, installed parallel to the roof.

Equipment Delivery & Installation Commencement: By 29th April 2011.

Conditions: Sign off prior to 30 June, 2011.

The package includes one 5 kW grid-connect inverter and 26 solar PV panels of 190 W (4.94 kW total). All products are fully approved to applicable Australian Standards and installers and designers accredited by the Clean Energy Council of Australia. The price assumes eligibility and entitlement to Small Scale Technology Certificates under the Australian Government's (Office of Renewable Energy Regulator) Small Scale Renewable Energy Scheme and their assignment to Metpro (Aust) P/L as an installation discount. You acknowledge that this installation is the first time installation of a Small Generation Unit at your installation site and agree to fully complete any documentation that may be requested to process the Small Scale Technology Certificates or other information that may be required by any presiding authority.

Warranties: PV panels – 5 year product warranty and a 20 year limited warranty on output (> 80 % output), provided by the manufacturer. Inverter – 5 year manufacturer's product warranty. Installation & workmanship – 12 months.

In the course of performing the installation and in the event of possible tariff discussions or negotiations with energy retailers or distributors, you authorise us to quote your electricity meter number and/or NMI or consumption history.

The installation does not include or make allowances for any structural modifications, extreme or unforeseen events (such as weather delays), pre-existing building or electrical deficiencies that may become apparent during the works.

Unless noted otherwise, all prices are exclusive of GST. For full terms and conditions contact John George at Metpro on 03 9587 2255. For technical information contact Murray Neilson on 0417 386 393.

I/we have read and understand this offer ("Exclusive Solar Offer to HSA Members" as circulated to HSA members during February 2011), accept the above terms and conditions and acknowledge an estimate of performance has been provided,
